FUN FACTS ABOUT KANGAROOS

Baby kangaroos

Baby kangaroos are about the size of a jellybean when they are born. They climb up into their mother's pouch and stay there and grow for about six months.

They can't walk or hop backwards.

Because of their long feet and large tail, kangaroos can't walk or hop backwards. They can only move forward.

Hello! I'm Ryan. I love Art. In my free time I like drawing, painting and taking photographs and I sometimes like making pottery. I really hate all sports and I don't like watching sports on TV. These are my friends: Sandra really likes animals. She loves dogs and elephants. In her free time she likes reading and singing, but her favourite activity is dancing. She hates wearing jeans. She always wears skirts or dresses. Phil is a bit lazy. He doesn't like sports. He never plays floorball and he doesn't like going outside. He likes listening to music and he is learning to play the guitar, but what he really loves is his computer. My friend Olivia is good at running and she likes gymnastics, too. She usually goes out with her friends in the afternoon. They like listening to music. Olivia goes to a boarding school, so I don't see her very often. Only at the weekends.
